- HSA provides the back-office support to OECE.

10. **Discussion and possible action for staff to enter into negotiations with Support for Families on a Commission approved extension plan for the Help Me Grow Early Care and Education contract**

Staff and Support for Families of Children with Disabilities presented the Help Me Grow Early Care and Education program. For the last two years, the scope of work addressed the following areas: screening, engagement, coordinated response, and early intervention service connection. There were two main concerns around the scope of work. One was whether clinical social work the right navigation support for families. The other was around racial equity and the ability of the staff to serve the communities of San Francisco.

Below is a summary of the presentation:

- Clinical social work was not right for families so a care coordination team was established.
- Adjusted the data being collected to include race and ethnicity.
- Performance measures around current service areas.
- Impact on ECE developmental screening.
- The racial equity performance measures that were developed.

The following were discussed:

- Program Committee asked what the actual number of children served rather than a percentage.
- Data is only at mid-year and is only a proportional representation.
- The number of African American children served.
- Setting more meaningful targets.
- Staff outreach, hiring, and training.
- Health and developmental screenings with nurses.
- Diversity of Support for Families Board of Directors.
- Possible revision on the scope of work.
- The work of the staff of Support for Families of Children with Disabilities.
- The Commissions oversight and monitoring of the contract.

The follow are three options presented to the Commission:

a. Extend the contract for six months from July 1, 2020 to December 31, 2020 with continued monitoring of revised equity performance measures and a revised scope of work and budget for a six-month ramp-down.

b. Extend the contract for twelve months from July 1, 2020 to June 30, 2021 with continued monitoring of revised equity performance measures and a revised scope of work and budget for a twelve-month ramp-down.

c. Extend the contract for twelve months from July 1, 2020 to June 30, 2021 with current scope of work and budget, with an option to renew through June 30, 2022; funding conditional upon continued achievement of Commission approved equity performance measures and accompanying corrective action plan.
